

# BUSINESS CYBERSECURITY CHECKLIST

Your business needs to prioritize cybersecurity, no matter your size, no matter your industry. Every business with digital assets faces cybersecurity threats. This checklist helps identify risks, protect assets, and plans for the worst.

- Inventory your I.T. assets.**
- Perform a risk assessment.**
- Maintain a strong password policy.**
- Limit user access.**
- Protect your end points.**
- Update your I.T.**
- Secure your Wi-Fi.**
- Monitor for threats.**
- Educate your employees.**
- Back up your data.**
- Plan for data recovery.**
